2021 Non-Livestock Virtual Project Judging

The virtual project judging option is a way for members to earn a completion award and potential outstanding award without attending in-person judging. **All virtual submission must be made over email.**

The guidelines listed below are the *minimum requirement* to obtain a "completion" for 2021:

Due Date: Friday, July 16

Project Area	Email Requirement	Submission
Food & Nutrition	Questions: • Tell me about one recipe you made from the project book • Tell me about one interesting fact or skill you learned from MyPlate • Tell me about a leadership or citizenship activity you completed	Beth Guggenbiller guggenbiller.23@osu.edu
Clothing	Questions: • Tell me about one of the project activities you completed • Tell me about a leadership or citizenship activity you completed • How will the activities or learning experience from this project be used in the future?	Beth Guggenbiller guggenbiller.23@osu.edu
Special Interest	Questions: • Tell me one thing you learned during this project • How will the activities or learning experience from this project be used in the future? • Share a community service or leadership experience you completed from the front of your project book	Erica Bowers bowers.360@osu.edu
Shooting Sports	Questions: • Tell me one thing you learned during this project. This should be a reflection from one of the goals you wrote this year. • How will the activities or learning experience from this project be used in the future? • Share a community service or leadership experience you completed from the front of your project book	Erica Bowers bowers.360@osu.edu

To submit your project for a completion evaluation:
1. Prepare your answers in a Word document or body of the email message. ***Please do not share google docs with us.***
2. If you have more than one project you are submitting, please include only one project per email.

3. The subject line of the email should include the name of the member and project book title.
4. Send your email and/or Word document to the designated person for your project area.

To submit your project for an outstanding award:
Members who choose to share more information based on the questions on the chart above or use a different platform (i.e. PowerPoint, video, YouTube, etc), or add their own creativity will have an opportunity to earn an Outstanding Award. A simple way to take your project one step further is including photos with your submissions. These photos could show member completing activities, creating items, or anything else showing how the member learned throughout the project. Think about what you would have included in your portfolio or poster board.

Outstanding awards will be selected by the judge. Members who earn an outstanding award will be entered into a drawing for a gift card.

What happens next?
Once we receive your submission, the judge will evaluate the project based on a member's age and expect that answer's will reflect their grade level. Members will receive an email within 3 business days that their project submission was received and is correctly done for completion as well as feedback from the judge. Members will hear about outstanding awards at a later date.
