### How will Livestock Interview Day work?

- Members will not be divided into age categories. The judge will take into consideration their age in the complexity of the members questions and answers.
- If a member takes multiple species, then they will attend the “multi-specie” judge. This will allow that member to complete all their interviews at one time with one judge. For example, multi-species would be if you take a beef project and a sheep project. Multi-specie *would not* be if you take a market sheep project and sheep breeding project.
- Members are asked to arrive sometime during the suggested times for their respective club. Interviews will range from 5-10 mins.
- If you cannot attend the suggested time, you can come anytime from within your species time frame.

- Enrollment into 4-H and selecting your livestock project.
- You are enrolling for what specie you will show at the fair.
- “Yes, I want to be in 4-H and need all the information for the following specie.”

**Due March 1<sup>st</sup>**

- Enrollment into the Junior Fair classes/shows.
- You are registering the specific animals you are bringing to the fair.
- “Yes, I am coming to the fair and bringing these animals for these exact classes.”

**Due July 8<sup>th</sup>**

- You are required to complete an interview to be eligible for participate at the Junior Fair.
- “Yes, I can tell you all about my project and review my Record book with you.”

**On July 11, 2024**
